SUMMARY OF THE REASONS FOR DECISION:

The DVD entitled *Sex Slider*, also known as *Sex Slider Shag-a-Rama!* is classified as: Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

This publication is a DVD version of the video recording entitled *Sex Slider Shag-a-Rama!* classified by the Office of Film and Literature Classification as objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years, with the descriptive note "Contains explicit sex scenes." This decision was registered on 20 April 2000.

The DVD also contains various notices, a trailer for the feature, publicity stills, brief cast biographies, a summary of the plot of the feature and five other trailers. The Classification Office gave consideration to the impact of the trailer entitled *The "Matador" 1* on the classification of the present publication. This trailer has sexual

content which in terms of its manner and degree strongly degrades and dehumanises the female participants. However it was considered that the criterion of extent, which requires consideration along with manner and degree under s3(3) of the Film, Videos, Publications Classification Act 1993, was not met. The trailer in question, which has more extreme elements than the moderately degrading and dehumanising elements in the feature as a whole, has a duration of approximately a minute. It is placed within a publication which has an overall duration of two and three quarter hours. On balance, after due consideration, it was decided that the additional components do not affect the classification given to the video recording.
